ANSWER THE BIG QUESTION

Q. How can you make the world a better place?

YOUR ANSWER

EXAMPLE I can contribute to making the world a better place by actively supporting others around me, and also by taking actions to preserve our planet.

The Effects of Climate Change on Our Planet

Climate change is more than just changes in the temperature. Because of climate change, many things that currently exist on Earth could disappear forever.

A Shortage of Vanilla

Can you imagine ice cream without vanilla? Climate change could make vanilla a thing of the past. Longer droughts and heavier rains make it more difficult to grow vanilla in areas like South and Central America. Global production of this plant could be on the decline.

The Disappearance of the Maldives

The Maldives is a dream vacation destination thanks to its gorgeous beaches. Unfortunately, this tropical paradise stands barely above sea level. If sea levels continue to rise, the Maldives could disappear as early as 2050!

Search if you want to know more about climate change.

[#effects_of_climate_change](#)

Loss of the Bengal Tiger

The Bengal tiger is under threat. The main home of the tiger is Bangladesh, and its habitat is shrinking because of rising sea levels caused by climate change. According to one study, the Bengal tiger's natural home could be completely gone by 2070.

Everyday Idiom

all hands on deck

Let's participate in the community plogging campaign.

What's plogging?

It's an activity that combines picking up trash and jogging.

Sounds like a great idea. We need **all hands on deck**.

It feels good to help our community.

What about the trash in your room?

배에서 비상 상황이 발생했을 때, 모든 선원들에게 갑판으로 올라오라고 외친 말에서 유래된 표현으로, 모두 손을 모아 돕는다는 의미입니다.
